ABSTRACT

Residence hall facility use for the State University of New York (SUNY) is examined in data collected in fall 1981 and compared with fall 1974 data. The study includes all state-operated/funded institutions that have residence hall facilities. Any residence hall facilities available at locally sponsored SUNY community colleges are financed in a different manner and are not included in the study. Part One, "Summary Tables, Fall 1974 through Fall 1981," reports on: total utilization of net revenue producing adjusted design capacity; percent utilization of net revenue producing adjusted design capacity; non-revenue producing utilization of residence halls for purposes other than resident student occupancy; revenue producing utilization of residence halls for purposes other than resident student occupancy; and number of students per resident assistant. Part Two, "Detailed Tables," presents information on: utilization of original design capacity of residence hall facilities, fall 1981; utilization of net revenue producing adjusted design capacity, fall 1981; student occupancy of net revenue producing adjusted design capacity, fall 1981; and distribution of resident assistant bed rental waivers in residence hall facilities, fall 1981. Part Three contains a publications list. A summary of data provides such findings as: the average number of students per resident assistant has remained relatively constant for the past seven years; of the total utilization, 64,828 or 99.4% was for resident student utilization; and in fall 1981, the total current utilization of residence hall facilities (headcount) was reported to be 65,210. Definitions are also provided in the categories of residential capacity descriptors, actual occupancy/use descriptors, and utilization indices. (LC)

PREFACE

This report of Utilization of Residence Hall Facilities consists of detailed data collected in the eighth annual survey of Fall 1981, as well as summary data from Fall 1974 through Fall 1981. Detailed tables for Fall 1974, Fall 1975, Fall 1976, Fall 1977, Fall 1978, Fall 1979 and Fall 1980 are available in earlier reports published by this office (see Publications List, page 29). Details regarding the residence hall program are crucial in the planning and budgetary functions of each institution. While the survey was specifically designed to meet the data requirements of the State University Central Administration Offices of Finance and Business and Academic Services, requests for these data have subsequently come from many sectors both inside and outside of the State University.

The study includes all State-operated/funded institutions which have residence hall facilities. Any residence hall facilities available at locally sponsored Community Colleges under the program of the State University of New York are financed in a different manner and are not included in the study.

A study of this complexity could not have been completed without the full cooperation of the institutional respondents, other Central Staff Offices, and the professional, statistical and typing staff of the Central Staff Office of Institutional Research and Analytical Studies.

Tommy Annas
Assistant Vice Chancellor

Emmy Mogilensky
Associate

INTRODUCTION

The methodology and definitions used in this study have been developed to be consistent with the University Guidelines for Utilization of Residence Hall Facilities and the State University of New York Policies and Procedures Manual. Definitions of the basic concepts used in this report are provided beginning on page xi.

The four tables of data for Fall 1981 may be described as follows:

Table 6 presents aggregated data which describe the original capacity of the residence hall facilities, the reductions or temporary adjustments to this original capacity, net available space and actual utilization.

Table 7 provides more detailed data concerning the types of utilization of net available space depicted in Table 6. Resident student utilization as well as other types of utilization are arrayed in categories, as described in the column headings.

Table 8 focuses on resident student utilization summarized on Table 7. Data are arrayed by institution, type of accommodation and rate paid by the students.

Table 9 displays, by institution, the distribution of Resident Assistant Bed Rental Waivers, total student occupancy, the R.A. factor with which the number of authorized bed rental waivers is calculated and the ratio of resident students to resident assistants.

The summary tables depict important segments of these data concerning utilization of residence hall facilities from Fall 1974 through Fall 1981. Trends in data reported to Central Office during the eight years of this study are shown in five separate tables covering: total utilization (headcount), percent utilization, non-revenue assignments, revenue producing utilization for purposes other than resident student occupancy (bedcount) and the ratio of students to Resident Assistants. The definitions over the eight year period are consistent with those described beginning on page xi.

SUMMARY OF DATA

In the Fall of 1981, the total current utilization of residence hall facilities (headcount) was reported to be 65,210. This utilization represents a slight decrease in utilization compared to the Fall 1980 utilization (see below and see Tables 1 and 6). The net revenue adjusted design capacity for the Fall of 1981 was reported to be 62,290 bedcount.

Summary of Utilization of Original Design
Capacity of Residence Hall Facilities
State-operated/funded Institutions,
State University of New York
Fall 1974 through Fall 1981

Year	Original design capacity (bedcount)	Net revenue producing adjusted design capacity (bedcount)	Total utilization (headcount)	Percent utilization of net revenue producing adjusted design capacity
Fall 1974	66,121	60,845	60,672	99.7
Fall 1975	66,121	60,785	62,025	102.0
Fall 1976	66,521	61,792	61,440	99.4
Fall 1977	66,569	61,453	62,339	101.4
Fall 1978	66,569	61,095	63,283	103.6
Fall 1979	66,569	61,183	64,606	105.6
Fall 1980	66,569	61,912	66,003	106.6
Fall 1981	67,569	62,290	65,210	104.7

Of the total utilization, 64,828 or 99.4 percent was for resident student utilization.

The average number of students per resident assistant has remained relatively constant for the past seven years (see Tables 5 and 9).

Revenue producing utilization of residence halls for purposes other than resident student occupancy continue to decline. This bedcount has been reduced from 1,351 in Fall 1974 to 434 in Fall 1981 (see Table 4). This trend corresponds with the State University's Guidelines which give first priority for utilization of residence halls to the housing needs of students.

Percent utilization of net revenue producing adjusted design capacity was reported to be 104.7 percent in the Fall of 1981. This utilization represents a 1.9 percent decrease from the reported 106.6 percent utilization in Fall 1980 (see Tables 2 and 6). In the Fall of 1981 eighteen of the twenty-five institutions surveyed report utilization of greater than 100 percent while four other institutions report utilization ranging from 96.1 percent to 99.7 percent. The Agricultural and Technical Colleges continue to show a net utilization of greater than 100 percent occupancy. Fall 1981 data indicate an occupancy of 116.7 percent at these colleges (see Tables 2 and 6).

DEFINITIONS

Residential Capacity Descriptors

BEDCOUNT--a unit of measure used to describe the capacity of the facility for residential purposes.

ORIGINAL DESIGN CAPACITY--the original residential capacity of the facility (expressed as BEDCOUNT*) as determined by architectural plans.

ADDITIONS TO ORIGINAL DESIGN CAPACITY--permanent conversions of on-campus facilities which increase their residential capacity (expressed as BEDCOUNT).

NON-REVENUE ASSIGNMENTS--residential capacity (expressed as BEDCOUNT) exempted from revenue production for special uses such as for RESIDENT ASSISTANTS. These assignments are subject to annual review by Central Administration.

NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY--the capacity of the facility expressed as BEDCOUNT, available for revenue producing uses. (ORIGINAL DESIGN CAPACITY, less NON-REVENUE ASSIGNMENTS, plus ADDITIONS TO ORIGINAL DESIGN.)

Actual Occupancy/Use Descriptors

HEADCOUNT--a measure of use which is the number of students or other persons occupying the facilities for residential purposes; or if the use of a facility is not residential (e.g. office space), then its use as expressed in terms of HEADCOUNT is the number of students displaced by the use of the facility for other purposes.

RESIDENT STUDENT OCCUPANCY--the HEADCOUNT of enrolled students and their spouses who reside in residence hall facilities. (This excludes RESIDENT ASSISTANTS.)

RESIDENT ASSISTANTS--students assigned to and residing in residence hall facilities for the purpose of peer counseling and the betterment of the quality of life within the residence hall complex. The BEDCOUNT of facilities dedicated for RESIDENT ASSISTANT occupancy is exempted wholly or in part from revenue production.

OTHER USES--uses of residence hall facilities for non-residential purposes such as office space or classrooms, or for residential use by students from other colleges or special non-student residential occupancy.

---

*Terms in capital letters are defined elsewhere in the "DEFINITIONS".

DEFINITIONS
(Continued)

Utilization Indices

CURRENT UTILIZATION--the total actual utilization (expressed as HEADCOUNT) of an occupied facility's available revenue producing capacity. This is the sum of total RESIDENT STUDENT OCCUPANCY and total OTHER USES.

NET UTILIZATION--the CURRENT UTILIZATION less NET REVENUE PRODUCING ADJUSTED DESIGN CAPACITY. This figure is negative (-) if the facility is under-utilized and positive (+) if the facility is over-utilized.

[a]The students reported as Resident Assistants perform a range of assignments which vary in type and degree of commitment. Therefore, the ratios shown here do not necessarily reflect differences in Resident Assitant services available to students.

[b]Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

[c]Calculation excludes Downstate Medical Center and Maritime which did not have Resident Assistants.

[d]Calculation excludes Downstate Medical Center which did not have Resident Assistants.

Maritime	900	-	-	- 33	- 33	-	867	889	+ 22	102.5

[a] Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

[b] As reported by each institution, including assignments pending review by Central Administration, which is responsible for the approval of such assignments.

[c] Net utilization equals current utilization less net revenue producing adjusted design capacity.

[d] Includes students accommodated in lounges, study rooms and other spaces not reflected in design capacity. Actual Headcount: Albany 12; Binghamton 86; Oswego 91; Potsdam 145; Purchase 102; Alfred Ag. & Tech. 166; Delhi Ag. & Tech. 136; Farmingdale Ag. & Tech. 52.

[e] Includes 3rd bed in 3-bed apartments assigned to married couples; applies to Downstate and Upstate Medical Centers only.

[a]Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

[b]If headcount exceeds bedcount, the accommodation is over-utilized or "crowded". If bedcount exceeds headcount, the accommodation is under-utilized.

[c]Bedcount of completely unoccupied rooms, suites or apartments.

[d]Includes rooms, suites and apartments.

[e]Other types of accommodations, including septuples and octuples with the appropriate adjusted design capacity bedcount, and space used as sleeping quarters not originally designed for that purpose, such as lounges and study areas where the adjusted design capacity bedcount is zero.

[f]Includes accommodations designed as Double Special Rate.

[g]Some beds briefly unoccupied as of census date.

[h]Includes converted study rooms.

[i]Includes single occupancy at 175% of double rate.

[j]Consist of smaller rooms which, together, were designed as suites or apartments to accommodate six students.

[k]Consist of large rooms designed to house six students.

[a] Excludes Empire State College, College of Environmental Science and Forestry, College of Optometry, College of Technology at Utica/Rome and the Statutory Colleges.

[b] The Central Office of Student Services assigns this numerical value to each campus which, when applied to the number of students housed, determines the number of bed rental waivers that may be utilized for Resident Assistants.

[c] The students shown here as Resident Assistants have received whole or partial bed rental waivers as indicated by the distribution of such waivers. These Resident Assistants perform a range of assignments which vary in type and degree of commitment. Therefore, the ratios shown here do not necessarily reflect differences in Resident Assistant services available to students.
